PROFILE

Undergraduate student majoring in 3D Animation, **with experience in character animation, 3D modeling, rigging and video editing.**

Proficient in Maya, ZBrush, Character Creator4, and Substance 3D Painter, with additional experience in AIGC-assisted animation generation and video post-production.

Passionate about character performance, visual storytelling, and the animation production pipeline, with the goal of pursuing a career in the animation, film and digital content industries.

PROJECT EXPERIENCE

Charity Animation Production For YOUKU

2026 · 3D AIGC Animation

- Contributed as a core production team member, covering **scriptwriting, selected asset generation, asset organization and post-production editing.**
- Designed visual content around the project's public-service theme and helped deliver the final animated film.

Red Cross Society of China Beijing Branch | 3D Mascot Visualization

Project 3D Character Modeling

3D Character Modeling / Editing

- **Created an original 3D model** of the organization's mascot.
- **Produced AIGC-generated animation** content for the mascot launch event and contributed to the production of a charity promotional video.

Graduation Film Collaboration | 3D Animation

Character Animation / Modeling / Rigging

- **Created selected 3D character animation** shots for the project.
- **Modeled props for selected environments.**
- **Rigged selected props** and completed assigned shots in coordination with the overall animation pipeline.
